

SCHOOL PROSPECTUS

SESSION 2026-27

THE
IMPERIAL
SCHOOL

Chairman's Message :

'Education is the passport to the future, for tomorrow belongs to those who prepare for it today.' The Imperial School, Green Campus, on the pristine land of the lush green countryside, under the aegis of **'Hope Educational Society'** is the harvest of the seeds sown in the form of **'The Euro Kids School (2015)'** and **'The Imperial School City Campus (in 2017),'** in Adampur city, our first two ventures to provide quality education to the people of Adampur whose overwhelming response gave us an impetus to come up with this institution an extension or periphery of the TIS City Campus which is flourishing today.

Backed up by the whole hearted support of the parent community to us, furnished with hi-tech and imposing infrastructure and above all competent, empathetic and congenial veterans as faculty, TIS Green Campus is the perfect place to fulfil the dreams and aspirations of all those who feel **'Sky is the limit' for them.** To those who feel success just came overnight to us. I would remind that it does not come as a gift but it comes to those who first have a vision, a dream and just throw themselves with all their strength - of the mind, the body and the soul. It is then that they succeed, on purpose. Today's generation is smart, intelligent, alert, aware and keen to know it all which is why this place is most suited to them as it is here that we provide them the 21st century learning through pedagogical approach as per the CBSE curriculum. We allow our children to wear their thinking caps, to explore, learn through their mistakes as it provides them the challenge, the thrill, adventure, enthusiasm and eventually satisfaction on emerging as well informed individuals ready to face any challenge. We create 'Challengers who are self driven, self motivated, who want to make a difference to their own lives. To them we say, "Come, explore, learn, unlearn and relearn so that you carry with you knowledge which is permanent, knowledge that gives you a cutting edge over your rivals not only relating to your learning at school, college or professional universities but also over your counterparts in whichever part of the world you may be." The **'Pinnacle of Glory'** will be reached once our children make self learning a habit, a practice, a passion, zeal to outshine and sparkle like precious stones, diamonds that sparkle the most as their cutting edge does it all. With strength of your sinews on the exterior and God within you, you can move a mountain. **'I just dreamt and I fulfilled it with my strength and the divinity of God within, so dream big and realize it here at The Imperial School Green Campus Adampur.'**

Mr. Jagdish Lal
Chairman

Director's Message:

'The true purpose of education is to facilitate learners to reason logically, to act smartly, to think critically, to be hi-tech savvy and to compete in a way to win positively.'

We at **The Imperial Schools**, both, at **The City Campus** as well as **The Green Campus** lay emphasis on the aforesaid since we believe in a practical approach to do what we say, to bring forth true future builders of nation. We offer the disciplines acquiring the knowledge of which our students can cope up with not just the national but also the international curriculum since ours is the conceptual approach to teaching learning process where students lead through active roles with teachers as facilitators to simply give a spur, through a gentle push for our students to soar to the zenith of learning. After we form a strong, concrete base in the formative years of learning in grades we have our students further nurtured and nourished by competent facilitators, our faculty who through their enriched experience shape them further. Since the time of its inception through **Euro Kids at Adampur**, true learning has been our sole purpose for our children to which we make no compromise. Our dear parents have supported our cause through their nourishing and nurturing in the right manner which has made our efforts worthwhile. To our society we owe a great deal, to add on to rich human resources which in turn will ensure enlightenment of our nation, our India.

Since the Vedic times India has been known to be a land of seers and knowledgeable patrons of art and literature, architecture, a center of commerce and trade, much before the so called developed nations of the world acquired recognition.

'We at The Imperial Group of Schools aim at restoring the same Glory of our country. If you too wish the same, come, join us in this noble venture of ours.'

Mr. Jagmohan Arora
Director

From the Principal's Desk:

'Learning is not the product of teaching; learning is the product of the activity of learners.'

Dear Parents,

Our endeavour at The Imperial School, Green Campus is to be emphatic about rendering unique conceptual learning atmosphere for all of our students in a way that whatever part of the world they may be at, they are able to have a strong foothold as exemplary scholars whom others look up to for their role models.

A positive learning atmosphere is one with spiritual ambience, creative and innovative approach, where there's a provision for critical analysis, well defined goals that blend with the paradigm shift in the 21st century pedagogical strategies forming the very core of ethos of an institution. **The Imperial School, Green Campus Adampur, under the aegis of Hope Educational Society** is one such educational institution with a difference. Here we provide the most conducive environment to our enthusiastic, dynamic learners which broadens their horizons, strengthens the driving spirit with futuristic vision in the rapidly transforming world of education, giving them a cutting edge over others. Learners are at a liberty to tap their own intrinsic potential through their analytical approach with a challenger's spirit which is bound to enhance their knowledge, consequently having them outshining the rest in the fast spreading realms of education. **'We give a spur to their self-learning with the Imperial Wings and they are ready to Fly.'**

'The Imperial School, Green Campus blends traditional values with modern approach to bring forth competent, well informed, morally good humans who are an asset to our society. Practicality is what we focus on for our children, for them to have their awareness kindled.'

Ms. Swinder Malhi
Principal

About The Imperial School:

The Imperial School is Co-Educational English Medium School" run by "Hope Educational Society, Adampur". The main aim of education is to develop a sensitive attitude, empathy and rational thinking in the child to differentiate between the right and the wrong. Hence "The Imperial School" has created an environment and ambience which will provide the students many opportunities to explore and challenges to identify their strengths and reinforce them. We wish to prepare our tender learners to be global responsible citizens, who would hold their own foot and individuality at any given point of time. This aspiration has made education beyond imparting text book knowledge, in our school.

The kids of 21st century know what they want and have the determination to achieve it. The school has given them the freedom and responsibility to take their own decisions to grow into responsible and strong individuals capable of facing the challenges of our society. The Imperial School has a set of well experienced teachers who handle the students psychologically to develop positive attitude in them. Life is a garden, parents and teachers are the gardeners and children are the infinite variety of flowers blooming in this garden. It is our job to tenderly nurture these blossoms, who are God's gifts to us, into blooming flowers.

Vision:

To nurture the students to become confident, have a high self esteem and the willingness to strive to move forward with a profound and intrinsic sense of responsibility towards the society. To provide the students with the opportunity to blend the national ethos with the 21st century global learning strategies for a holistic growth.

Mission:

To provide a conducive environment to broaden their horizons, strengthen their motivation, promote critical thinking skills, team spirit and futuristic approach in a dynamic and rapidly changing world.

Philosophy:

We endeavor to develop a passion for excellence and determination to meet challenges through broad based skills with due emphasis on ethical and moral values to shape children into conscientious and responsible citizens with a high sense of honesty, integrity and truthfulness. The children are taught from primary level the importance of values in their lives like respecting elders in their families, society, their peer group and teachers. The feelings of empathy, humanity, patriotism, nationalism are imbibed from childhood. The civic education is the prime goal of our teaching.

At The Imperial School We have a large playground in the school campus. Every child gets an opportunity to participate in competitive athletics and co-scholastics activities. According to the age group different sports facilities are provided to students like Skating, Football, Basketball, Badminton, Judo, Karate, Gymnastics, Taekwondo and many indoor games, Inter-house and Inter-school competitions are organized from time to time to promote good sports skills. There is also a facility of indoor play ground with vinyl flooring for the safety purpose of students.

Green Campus

Green campus is maintained by the students and teachers along with a gardener. Each and every student plants a sapling on his/her birthday. Each class has been allotted the area and the day to maintain it. Water harvesting is looked after by the teachers along with few students. Thus the students understand their responsibility to look after the school property as their own.

Medical facilities and Infirmary

In case of any medical emergency during school hours, medical facility is available in school campus. A qualified Doctor visits the campus whenever he/she is required.

Music & Dance Department

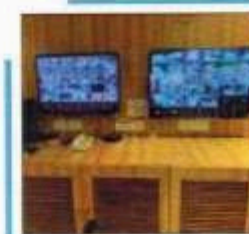

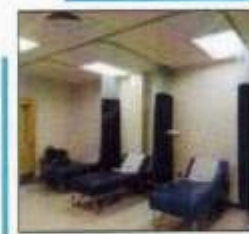

We have a well equipped music & dance room for our budding musicians to wash away, from their soul, the dust of everyday life which is rejuvenating. Students perform Indian and Western music as well as orchestra during regular assembly; various special and cultural occasions under the guidance of experienced and specialized teachers are observed.

Co-Curricular Activities

Manifold opportunities are offered to the students to shape and develop a well rounded personality. They have the chance to participate in various co-curricular activities and a wide range of hobbies such as drawing, painting, dramatics, music and dance, besides community service.

Security & Safety

For security & safety purpose there are HD cameras. Security guard is 24x7 available at the gate. No visitors/guardians are allowed to enter the school premises unless they produce an I-card with their passport size picture.

THE IMPERIAL SCHOOL

Key Features of the school:

1. TIS Green Campus follows the CBSE Curriculum.

14. Consciousness, curiosity and focus through Yoga, Meditation and Value education.
15. Civic education to develop the feeling of nationalism.
16. Extra curricular activities for character building.

Student's & Parent's Views:

Priyansh Kuniyal
Grade - 6

“

"Hi! I am Priyansh Kuniyal of Royal at the Imperial School Green Campus. My school has a perfect system with smart classes, laboratories for subjects like Physics, Chemistry and Biology, Mathematics, Social Science and Computers, where learning is fun as teachers are very understanding and helpful in providing us with all that we require to learn, not only in studies but also in other areas like sports, music, dance, skating and karate classes. It has a large playground where we play many games and do exercises. We skate in the skating tracks which is really exciting! We have perfect teachers both, in class as well as on the sports ground and for music & dance. It is very important for our school to have such good teachers. My experience so far, has been good. We have a safe and healthy environment as we have CCTV cameras, guards and a lot of greenery all around our campus. We have physical and mental development through different activities like role plays, celebration of festivals - national and cultural with a number of physical activities as I have just talked about. I love my school, my teachers and I feel proud of being a student at the Green Campus!

”

Arunima
Grade - 5

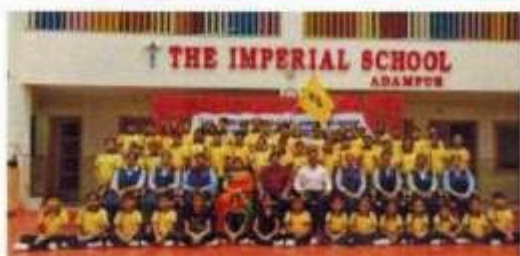

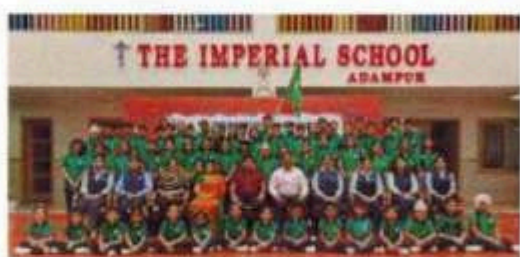

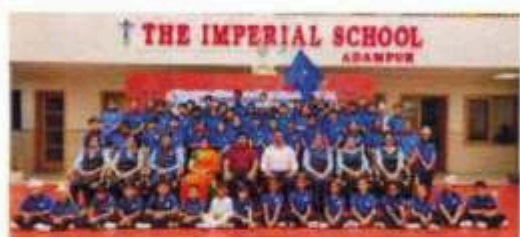

“

"My school, The Imperial School Green Campus is very beautiful and has very good teachers who help us a lot. They motivate us to work hard and solve all our problems about any subject clarifying our doubts without grumbling. We are involved in many activities like skating, karate, yoga and physical education classes too. There are many labs like for science subjects - Physics, Chemistry and Biology which I will start visiting more once I am in senior classes. We go now too for our science practical. We have Social Science, Computer and Maths labs too where we learn practically. We have a beautiful garden, basketball court and skating tracks where we have great fun! We have a lot of greenery in our Green Campus and we have done many activities to save trees, animals and we also had Earth day special assembly. We also have a number of competitions like recently we had Idol Quest 2K21 on 26th December and many more literary competitions. We have security cameras all over in our school so we are safe. There are guards at our gate too. We have an infirmary where all the students can take first aid if while playing games they fall and hurt themselves a little. There are general medicines and super clean beds for rest. I love my school!!!!"
